

## Viniflora® CH35

### Product Information

Version: 1 PI GLOB EN 04-04-2016

### Description

Viniflora® CH35 is a freeze-dried culture of *Oenococcus oeni*. It is a heterofermentative malolactic bacteria which has been selected to ensure a fast and safe malolactic fermentation when inoculated directly into wine. It is adapted especially for inoculation of rosé and white wines with low pH and high levels of SO<sub>2</sub>. It has a good tolerance towards temperature and alcohol levels.

### Culture composition:

*Oenococcus oeni*.

Material No:	696559	Color:	Off-white to slightly brown
Size	5X25000 L	Format:	FD-DVS
Type	Pouch(es) in box	Form:	Granulate

### Storage

< -18 °C / < 0 °F

### Shelf life

When stored according to recommendation the product has a shelf life of 37 months.

At +5°C (41°F) the shelf life is at least 6 months.

### Application

This culture has been selected for its outstanding performance and capability to perform malolactic fermentation in difficult white wines. This strain performs very well in rosé and white wines but has also been used successfully in red wines. Among the features are:

- Direct inoculation into wine
- High numbers of active cells which ensure a quick start of fermentation
- High level of microbiological purity
- Outstanding tolerance to low pH and elevated levels of SO<sub>2</sub>
- Strong fermenter under harsh white wine conditions
- Moderate to high production of diacetyl and 2,3 butanediol from citric acid
- Low production of volatile acidity
- Does not produce biogenic amines\*

\* During malolactic fermentation indigenous bacteria produce biogenic amines from amino acids. Viniflora® strains have been selected by Chr. Hansen using state-of-the-art techniques in screening, analyses or production to deliver malolactic cultures unable to produce the following biogenic amines: histamine, tyramine, putrescine, phenylethylamine, isoamylamine, cadaverine.

For further information about biogenic amines in wines and how Viniflora® products can help to reduce this food safety concern, please visit the following site: [www.chr-hansen.com/wine](http://www.chr-hansen.com/wine).

## Viniflora® CH35

Product Information

Version: 1 PI GLOB EN 04-04-2016

### Directions for use

Viniflora® freeze-dried cultures are adapted for direct inoculation into wine. No rehydration or reactivation is required.

1. Remove the pouch from the freezer 15 min. before use and place at room temperature. Make sure that the dosage complies with the amount of wine to be inoculated.

2. Open the pouch and add the granulated culture directly to wine. The culture can be dissolved in a smaller volume first and added to the total volume right after, if required. Make sure that the culture is completely dissolved in the wine.

### Technical Data

#### Performance

Viniflora® CH35 degraded the malic acid in 33 days, compared to the spontaneous tank, where the fermentation did not start.

Robert Mondavi winery 2001

Ethanol 12.9 vol%, pH 3.28, SO<sub>2</sub> 18.0 ppm

Viniflora® CH35 degraded the malic acid in 33 days. After 50 days of fermentation there was still 2.5g malic acid left in the tank with spontaneous fermentation.

**Viniflora® CH35**

Product Information

Version: 1 PI GLOB EN 04-04-2016

Chardonnay Napa valley winery 2000  
 Ethanol 14.1 vol%, pH 3.25, SO<sub>2</sub> 11.5 ppm, Temp. 15.6°C

Physiological data

<b>Inoculation temperature range</b>	15-25°C (59-77°F)
<b>pH minimum*</b>	3.1
<b>Total SO<sub>2</sub>, max. at inoculation*</b>	45 ppm
<b>Alcohol maximum *</b>	14 % vol

\* note that these inhibitory factors are antagonistic towards each other.  
 The individual tolerances are valid only if other conditions are favourable.  
 Check level of SO<sub>2</sub> produced by the yeast used for primary fermentation and be aware of level of free SO<sub>2</sub>.

Legislation

Chr. Hansen's cultures comply with the general requirements on food safety laid down in Regulation 178/2002/EC. Malolactic bacteria are generally recognized as safe and can be used in food, however, for specific applications we recommend to consult national legislation.

Food Safety

No guarantee of food safety is implied or inferred should this product be used in applications other than those stated above. Should you wish to use this product in another application, please contact your Chr. Hansen representative for assistance.

Labeling

No labeling required, however please consult local legislation if in doubt.

Trademarks

Product names, names of concepts, logos, brands and other trademarks referred to in this document, whether or not appearing in large print, bold or with the ® or TM symbol are the property of Chr. Hansen A/S or used under license. Trademarks appearing in this document may not be registered in your country, even if they are marked with an ®.

Regulation (EC) No 1830/2003 of the European Parliament and of the Council of 22 September 2003 concerning the traceability and labeling of genetically modified organisms and the traceability of food and feed products produced from genetically modified organisms amending Directive 2001/18/EC, and with later amendments.

### Allergen Information

List of common allergens in accordance with the US Food Allergen Labeling and Consumer Protection Act of 2004 (FALCPA) and EU Regulation 1169/2011/EC with later amendments	Present as an ingredient in the product
Cereals containing gluten* and products thereof	No
Crustaceans and products thereof	No
Eggs and products thereof	No
Fish and products thereof	No
Peanuts and products thereof	No
Soybeans and products thereof	No
Milk and products thereof (including lactose)	No
Nuts* and products thereof	No
List of allergens in accordance with EU Regulation 1169/2011/EC only	
Celery and products thereof	No
Mustard and products thereof	No
Sesame seeds and products thereof	No
Lupine and products thereof	No
Mollusks and products thereof	No
Sulphur dioxide and sulphites at concentrations of more than 10 mg/kg or 10 mg/litre expressed as SO <sub>2</sub>	No

\* Please consult the EU Regulation 1169/2011 Annex II for a legal definition of common allergens, see European Union law at: [www.eur-lex.europa.eu](http://www.eur-lex.europa.eu)
