tion 1 BBODUCT and CC	Product Identifier: Gue	smer Cellulose Carbon Filte	er Sheet with Natural DE	
	MFANTIDENTIFICATION			
Product Code(s): Chemical Name:		atural DE		
Intended Product Use:	s of the substance or mixture and uses Filtration To avoid exposure to airborne dust, do not da	•	I. Do not use damaged sheets.	
1.3 Details of the supplier Manufacturer/Distributor:	of the safety data sheet Gusmer Enterprises, Inc.			
Postal Address:	81 M Street, Fresno, CA 93721 USA	1401 Ware Street, W	aupaca, WI 54981 USA	
Telephone Number:	(01)(559) 485-2692 [USA] (product info)	(01)(715) 258-5525 [l	JSA] (product info)	
Hours of Operation:	Monday - Friday 8:00am-5:00pm PST	Monday - Friday 8:00	am-5:00pm CST	
1.4 Emergency telephone n Medical Emergency: Chemical Emergency:	911			
tion 2 - HAZARDS IDENTI	FICATION			
2.1 Classification of the su	bstance or mixture			
	accordance with 29 CFR 1910 (OSHA H d, is not regulated as an OSHA hazardous o Crystalline Silica.		normal state and for its intended purp	DOSE.
2.2 Label Elements Hazard Pictogram(s):	None	Signal Word: NA		
Hazard Statements:	NA	Precautionary Sta	tements: NA	
2.3 Emergency Overview Appearance/Odor:	Black, carbon-impregnated filter sheets, gene	rally odorless.		
Other Hazards: Warning: Product may form combustible dust concentrations in air during processing. Specifically, in instances where product dust is suspended concentrations and in proximity to an ignition source. Product as supplied and shipped does not constitute a dust hazard. Users of this product sh potential to generate dusts during handling and processing and related combustibility hazards and controls.

		ellulose Carbon Filter Sheet with Natural DE					
Section 5 - FIREFIGHTING ME	EASURES						
5.1 Extinguishing Media Suitable Extinguishing Media: Unsuitable Extinguishing Media:	<ul> <li>Water or other extinguishing agents appropriate for f DO NOT USE a solid water stream as it may scatter the risk of creating uncontrolled dust emissions.</li> </ul>		large amounts of activated carbon is not recommended due to				
5.2 Special hazards arising from the substance or mixture Products of combustion include carbon monoxide, carbon dioxide and fine particulate in the form of smoke.							
5.3 Advice for firefighters As in any fire, wear NIOSH	H-approved self contained breathing apparatus and app	propriate protective clothing.					
Product as supplied and shipped is highly unlikely to release sufficient cellulose dust to constitute a combustible dust explosion hazard. Depending on airborne concentration, moisture content, particle diameter, surface area and exposure to an ignition source, airborne cellulose dust may ignite and burn with explosive force in a contained area. Cellulose dust may similarly deflagrate (combustion without detonation like a supersonic explosion) if ignited in an open or loosely contained area. Cellulose dust explosibility: (*K <sub>st</sub> dy = >200 and <300 bar m/s). Activated carbon explosibility: (*K <sub>st</sub> 105 bar m/s). Caution should be taken in the processing, shipping, handling and use of these materials, particularly if they are in a dry state and dust is produced. Reference NFPA standards 654, 69 and the NFPA Fire Protection Handbook for guidance. *K <sub>st</sub> the maximum rate of pressure rise is used to calculate the *K <sub>st</sub> value; an internationally recognized index used to classify dust explosibility.							
Section 6 - ACCIDENTAL REL	EASE MEASURES						
6.1 Personal precautions,	protective equipment and emergency procedu	ires					
	ecovery and disposal. Avoid creating dusty conditions ring face piece respirator ("dust mask") and goggles w		g to avoid accumulation of cellulose dust on exposed surfaces. ts may be exceeded or for additional worker comfort.				
Other precautions: Minimi	ze compressed air blowdown or other practices that ge	enerate high dust levels.					
	6.2 Environmental precautions None, discharge in accordance with federal, state and local laws.						
	6.3 Methods and materials for containment and cleaning up If large amounts of dust are generated, collect with vacuum or suppress with water spray and sweep up.						
	priate personal protective equipment.						
Section 7 - Handling and Storage 7.1 Precautions for safe handling Avoid generating excessive dust. If dust levels are suspected to be over PEL, wear a NIOSH approved N95 or greater respirator. Protect from excessive moisture. Maintain good							
housekeeping practices.	See Section 8 for more information						
7.2 Conditions for safe storage, including any incompatibilities Store in cool, dry place away from open flame and other sources of ignition. Do not store together with strong oxidizing agents.							
See Section 8 for OSHA permissible exposure limit(s) Section 8 - EXPOSURE CONTROL / PERSONAL PROTECTION							
8.1 Control parameters	ROE/TERCONALTROTECTION						
Cellulose $(C_6 H_{10} O_5)_n$	OSHA PEL <sup>1</sup> PEL-TWA 15 mg/m <sup>3</sup> Total Dust (PNOR) <sup>1</sup>	ACGIH <sup>2</sup> TLV-TWA 10 mg/m <sup>3</sup> Total Dust	NIOSH REL <sup>3</sup> REL-TWA 10 mg/m <sup>3</sup> Total Dust

Diatomaceous Earth, Natural	PEL-TWA 5 mg/m <sup>3</sup> Respirable Dust (PNOR) <sup>1</sup> TWA Total Dust (80 mg/m3)/(%SiO2) Not Established	TLV-TWA 3 mg/m <sup>3</sup> Respirable Dust Not Established Not Established	Not Established 5 mg/m <sup>3</sup> Not Established				
Notes:	1. OSHA particulate not otherwise regulated (PNOR)						
8.2 Exposure controls	trols						
Engineering Controls:	Normal Handling Conditions						
Engineering controls.	If necessary use ventilation system to keep airborne dust concentration below permissible exposure limits. Ventilation to control dust should be considered where potential explosive concentrations and ignition sources are present. The design and operation of any exhaust system should consider the possibility of explosive concentrations of cellulose dust within the system.						
	Ensure that exhaust ventilation and material transport systems involved in handling this product contain explosion relief vents or suppression systems designed and operated in accordance with applicable standards if the operating conditions justify their use.						
Respiratory Protection:	If dust levels are suspected to be over PEL, wear a N	NOSH approved N95 or greater respirator.					
Eye Protection:	ANSI Z87+ approved dust goggles or safety glasses	if necessary, to avoid eye irritation.					
Skin Protection:	Cover skin with clothing and/or gloves if skin dryness or irritation occurs.						
General Hygiene:	Maintain good housekeeping practices, wash hands accumulation of this combustible material. Minimize		p areas where cellulose dust settles to avoid excessive t generate high airborne-dust concentrations.

		SAFETY DATA SHEET F	ORM		
	Product Identifier:	Gusmer Cellulose Carbon Filter She	eet with Natural DE		
Section 12 - ECOLOGICAL IN	FORMATION				
12.1 Toxicity					
No Data Available					
12.2 Persistence and degra		1 month - 1 year in freshwater and coastal seawat	ter.)		
12.3 Bioaccumulative pote		· · · · · · · · · · · · · · · · · · ·			
Not expected to bioaccum	ulate.				
12.4 Mobility in soil Cellulose fiber persists in a	arid soil (landfills).				
12.5 Other adverse effects					
No Data Available					
Section 13 - DISPOSAL CONS	BIDERATIONS				
Substances					
		tainer in accordance with local, regional, national,	and/or international regulations.		
Section 14 - TRANSPORTATIO	ON INFORMATION				
UN Number:	Not Applicable				
Class:	Not Applicable				
Proper Shipping Name: Packing Group:	Not Applicable Not Applicable				
Marine Pollutant:	Not Applicable				
Other Applicable	Not Applicable				
Information:	rior, applicable				
Section 15 - REGULATORY IN	FORMATION				
15.1 Safety, health and env	vironmental regulations/leg	islation specific for the substance or mixe	ture		
TSCA: Diatomaceous Ear	rth, Natural appears on the EPA	TSCA inventory list.			
SARA 302: No chemicals	in this material are subject to the	e reporting requirements of SARA Title III, Section	302		
	does not contain any chemical of	components with known CAS numbers that exceed		tablished by SARA Title III, Section 313.	
California Prop. 65 Comp	oonents:				
		y contain crystalline silica, a chemical known to the	e State of California to cause can	.cer.	
Section 16 - OTHER INFORM	ATION				
Product Number(s):					
	C Carbon Filter Sheet Seri	es Item Number(s): MC30, MC70
