

Gusmer is a family owned business, established in 1924, which supports essential businesses in beverage, food and pharmaceutical manufacturing. Our Wisconsin facility is currently focused on producing filtration products used in the creation of potential vaccines and treatments for COVID-19 in addition to our normal pharmaceutical and other filtration business. We highly value our employees and are looking for motivated candidates for our manufacturing production department that will help us achieve our vision to create and deliver success through experience and innovative solutions.

Lab Quality Control Tech:

This department is a quality lab that helps support the ongoing production line. The individual hired will be testing materials incoming in-process and also outgoing. The Lab QC Department is a positive and diverse work area with a team effort atmosphere. They will be asked to collaborate with Production Leads consistently to keep quality product leaving the docks. Looking for an individual that feel strongly about creating a quality product, taking pride in their work, and someone wanting to make an impact. This individual needs to be able to multitask and adapt with the daily demands of our Production Media Line.

Please see the additional information below:

- High school diploma or equivalent is required and lab experience in a food manufacturing setting is a plus.
- Third shift position is available at this time. This is the position for someone who would like to take advantage of working only a 3 day work week every other week, with every other weekend off!
- Starting pay is **\$19.00/hr** with Double Time Pay for hours worked on Sundays!
 - Pay increases with each training level increase.
- Amazing benefits that start the 1st of the month after date of hire. (Outstanding health, dental and vision insurance generous 401k match, education reimbursement, gym club reimbursement, vacation pay, sick pay, personal leaves, and PROFIT SHARING.)
- Once hired individuals will benefit from our 8 week hands on training program!

Come grow with our Amazing Family Owned Company!
