"		SAFETY DATA SHEET	
		FermPoint <sup>®</sup> 201	
Section 1 - PRODUCT and CO	MPANY IDENTIFICATION		
1.1 Product Identifier Product Name:	FermPoint <sup>®</sup> 201		
Product Code(s): Chemical Name: Synonyms:	Mixture		
1.2 Relevant identified uses Intended Product Use:	es of the substance or mixture and uses advised against : Complex nutrient blend Intended for use only by commercial manufacturers. Not intended for retail sale or use by individual consumers.		
Telephone Number:			
1.4 Emergency telephone nu Medical Emergency:			
Section 2 - HAZARDS IDENTI	FICATION		
2.1 Classification of the sub GHS Classification in a Combustible Dust	ostance or mixture: accordance with 29 CFR 1910 (OSHA HCS)		
2.2 Label Elements Hazard Pictogram(s):	None	Signal Word: Warning	
Hazard Statements: May form combustible dust	concentrations in air.	Precautionary Statements: Avoid heat, sparks, flames and other ignition sources. Prevent dust accumulations to minimize explosion hazard. Ventilation recommended.	
2.3 Emergency Overview Appearance/Odor:	Tan colored powder with yeast like aroma.		
Other Hazards:	Warning: Inhalation may cause respiratory irritation, ingestion may cause intestinal discomfort (bloating, or	breathlessness, coughing, chest tightness, and difficulty breathing. May cause skin irritation on prolonged contact. May cause eye irritation upon direct contact. Excessive cramping, diarrhea, etc.).	
		compounds and NIOSH has reported the occurrence of severe lung disease in some workers who make or use flavorings. The mixture has not been tested as a whole. It ne mixture in concentrations which would exceed an established OSHA permissible exposure limit or ACGIH Threshold Limit Value, or could present a health risk to	
	NFORMATION on INGREDIENTS ponents of this product is proprietary information and is Common Name & Synonyms	s considered a trade secret pursuant to 29 CFR 1910.1200. This product consists of a proprietary mixture which includes organic and inorganic nitrogen, vitamins and Percentage CAS No.	
No hazardous ingredients accordi	ing to OSHA Hazard Communication Standard 29 CF	R 1910.1200.	
Section 4 - FIRST AID MEASU	IRES		
Skin Contact: Inhalation:	aid measures Rinse opened eye for several minutes under running Immediately wash with water and soap and rinse thc		
Ingestion:	In case of unconsciousness, place patient securely of Give large amounts of water. If symptoms persist of	on side position for transportation.	
4.2 Most important sympton Eye Contact: Skin Contact: Inhalation: Ingestion:	In case of unconsciousness, place patient securely of Give large amounts of water. If symptoms persist or <b>ms and effects, both acute and delayed</b> May cause irritation. May cause irritation. May cause instation. SAFETY DATA SHEET

FermPoint<sup>®</sup> 201

#### Section 7 - Handling and Storage

7.1 Precautions for safe handling

Avoid generating excessive dust. If dust levels are suspected to be over PEL, wear a NIOSH approved N95 or greater respirator. Protect from excessive moisture. Maintain good housekeeping practices. Avoid contact with eyes, skin and clothing. See Section 8 for more information

#### 7.2 Conditions for safe storage, including any incompatibilities Store in original container or clean, covered container. Store in cool, dry, well-ventilated area. Product should be kept sealed and dry.

### See Section 8 for OSHA permissible exposure limit(s) Section 8 - EXPOSURE CONTROL / PERSONAL PROTECTION

8.1 Control parameters

This product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

## 8.2 Exposure controls

Normal Handling Conditions If necessary use ventilation system to keep airborne dust concentration below permissible exposure limits. Ventilation to control dust should be considered where potential explosive concentrations and ignition sources are present. The design and operation of any exhaust system should consider the possibility of explosive concentrations of dust within the system. Engineering Controls: Ensure that exhaust ventilation and material transport systems involved in handling this product contain explosion relief vents or suppression systems designed and operated in accordance with applicable standards if the operating conditions justify their use. Respiratory Protection: If dust levels are suspected to be over PEL, wear a NIOSH approved N95 or greater respirator.

- Eye Protection: ANSI Z87+ approved dust goggles or safety glasses, if necessary, to avoid eye irritation.
- Skin Protection: Cover skin with clothing and/or gloves if skin dryness or irritation occurs.

General Hygiene: Maintain good housekeeping practices, wash hands after handling, avoid direct eye contact. Clean up areas where dust settles to avoid excessive accumulation of this combustible material. Minimize compressed air blowdown or other practices that generate high airborne-dust concentrations.

#### ection 9 - PHYSICAL and CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties Physical State: Powder Color: Tan colored Odor: Yeast-like aroma Odor Threshold: No Data Available pH: Melting / Freezing No Data Available No Data Available Point (Specify): Initial Boiling Point & No Data Available Boiling Range: Flash Point: No Data Available Evaporation Rate: No Data Available Flammability (solid, gas): upper: No Data Available lower: No Data Available Explosive Limits: Vapor Pressure: LEL: No Data Available UEL: No Data Available Kst: No Data Available No Data Available Vapor Density: Relative Density: No Data Available No Data Available Solubility(ies): Partition Coefficient (n-Partially soluble in water No Data Available octanol/water): Auto-ignition Temperature: No Data Available Decomposition No Data Available Oxidizing Properties: Viscosity: No Data Available No Data Available

Section 10 - STABILITY and REACTIVITY

10.1 Reactivity: No Data Available

10.2 Chemical stability: Stable under recommended storage conditions.
 10.3 Possibility of hazardous reactions: None

- Conditions to avoid: Avoid open flame, sparks and other sources of ignition. Avoid humidity
   Incompatible materials: Avoid open flame, sparks and other sources of ignition.

10.6 Hazardous decomposition products: No Data Available

# Section 11 - TOXICOLOGY INFORMATION

11.1 Information on toxicol Toxicology Data:	ogical effects The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition.
Skin Corrosion/Irritation:	Irritant to skin and mucous membranes.
Serious Eye Damage/Eye Irritation:	Irritating effect.
Respiratory or Skin Sensitization:	No sensitizing effects known.
STOT - Single Exposure:	May cause upper respiratory tract irritation.
STOT - Repeated Exposure:	Not known to produce any long-term effects from continuing exposure.
Aspiration Hazard:	No Data Available
11.2 Further Information Mutagenicity:	No Data Available
Productive Toxicity:	No Data Available
ACGIH:	Not classified as a carcinogen by OSHA, NTP, or IARC in their reviews. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by NTP. No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.
