PH SENSOR FAMILIES

## Our Sensors – Your Benefits

## Polilyte Plus

The Polilyte Plus family of pH and ORP electrodes is designed for harsh chemical environments like in the bottle / keg washer, for process water preparation and wastewater treatment. The great performance in these applications can be achieved due to the Single Pore technology and the Polisolve Plus electrolyte.

## **Benefits**

- Highly reproducible and stable measurements in bottle & keg washers thanks to the Polisolve Plus electrolyte
- No clogging in wastewater due to the Single Pore technology ensures long lifetime
- Polisolve Plus reference electrolyte covers a wide temperature range and withstands reference poisoning
- Available as ORP sensor
