PH SENSOR FAMILIES

Our Sensors – Your Benefits

EasyFerm Bio

The EasyFerm Bio family of pH electrodes is ideal for food & beverage applications like fermentations, where cleaning in place (CIP), steam sterilization (SIP) and autoclavation procedures occur frequently. Precise measurement and long sensor durability can be achieved due to the high performance coatramic diaphragm and the CIP-resistant HB pH glass. The certified reference electrolyte “Foodlyte” has passed biocompatibility tests successfully.

Benefits

- Fast recovery and stable measurement signals after several CIP, SIP and autoclavation procedures
- Pre-pressurized for accurate measurement and reduced maintenance
- Enhanced hygienic barrier due to coatramic diaphragm
- Biocompatibility tested according to EN ISO 10993-5

USP
Class VI
