#### 5. FIRE-FIGHTING MEASURES

##### 5.1 Extinguishing media

Use fire-extinguishing media appropriate for surrounding materials.

##### 5.2 Special hazards arising from the substance or mixture

Potential dust explosion hazard. Fine dust dispersed in air in sufficient concentrations and in the presence of an ignition source is a potential dust explosion hazard.

The explosion limits and the flash point are stated in section 9.

##### 5.3 Advice for firefighters

Selection of respiratory protection for fire fighting: follow the general fire precautions indicated in the workplace.

---
